

Beatbox

Mobile auditorium

Design — Iiro Viljanen

Beatbox is an auditorium-like stand for schools and working environments. It creates a cosy and relaxed meeting place for informal gatherings, as well as team work. The wheels under the stand and the telescopic structure allow the lowest steps to be inserted into the structure so that it can be moved effortlessly.

MATERIAL DESCRIPTION:

Steel structure, MDF, steps dark grey carpet.

Beatbox is available in two color versions: tri-color

Beatbox and whole black Beatbox Black.

Colours: ends painted in white (RAL 9016), black (RAL 7016) and yellow (RAL 1016).
